

Good morning to all of you. Last week the honble joint director of education invited principals of all colleges in thane district to discuss the online admission and fee process and preparedness for online teaching. I informed him that we have already begun our lectures from 2 june in various subjects. He was happy to hear that. He advised that provisional admissions should commence from 1 august 2020. So the College is starting admissions from 1 august. The process of application and payment of fees shall be posted on groups by hemant. All can apply even if your results are pending or you have failed or are ATKT students. Even students of earlier A. Y. Can apply. Whether the exams for the even semester of AY 2019-20 will be held or not will be decided by the BCI and Mumbai University; and this should not worry us at this moment while applying for admission.

Any student having any query, problem or difficulty in applying will contact HEMANT alone. No teacher should be contacted. If your query or difficulty is unresolved you may approach me directly. This will eliminate misunderstandings and miscommunications.
